P R O F I L E

I've been learning front-end web development by visiting online courses(cursor.education) for about 5 months. In my study projects I used HTML/CSS/JS to make modern responsible web pages, as well as preprocessors (Pug, SASS). Also I had to use such popular frameworks as a Bootstrap and even dive a little into the world of the popular JS library "REACT". I'm looking forward to start writing code and solving different tasks.

E D U C A T I O N

- **Master's diploma**
Kyiv National University of Trade and Economics
Computer science and information technologies
2012-2018
- **Online Courses**
Front-end web dewelopment
2020

S K I L L S

- Html, Pug
- CSS, Sass
- JS
- React
- Netlify
- Git

E X P E R I E N C E

- **Gas station operator**
From 2015 to 2016
Sale of fuel and related products, preparation of shift reports
- **Waiter**
From 2016 to 2019
Food sales, serving guests to get them happy and smiling and with the taste of pleasure about visiting our place
- **Freelance Projects**
2021
For my friends I've set up a few web ecommerce sites for their business made on WordPress platform
